Data Source Key

Fields	Data Source
Degrees Awarded	UK Institutional Research and Advanced Analytics (IRAA) HANA/SAP through Tableau Institutional Degrees Awarded workbook. Raw data reports available upon request from tricia.coakley@uky.edu
Enrollment	UK Institutional Research and Advanced Analytics (IRAA) HANA/SAP through Tableau Institutional and Regulatory Enrollment workbook. Raw data reports available upon request from tricia.coakley@uky.edu
Department SCH	This is the student credit hours of courses offered by the department, regardless of instructor primary appointment. UK Institutional Research and Advanced Analytics (IRAA) HANA/SAP through Tableau Credit Hours workbook. Raw data report available upon request from tricia.coakley@uky.edu
Instructor SCH	This is the student credit hours offered by instructors in the department, regardless of course host department. The **"Best match college/department"** selection uses a combination of fields to classify instructors in order to categorize all instructors within a college or unit. The "Best match" selection uses the college and department budget model fields first. Any records that are not included in the budget model fields are then assigned a college and department based on the following priority: the college of academic appointment, the college of the instructor's HR assignment and finally, the college that lists the class. In the case of CAFE FY2018 data, all instructors were associated by budget alone. UK Institutional Research and Advanced Analytics (IRAA) HANA/SAP through Tableau Instructor SCH workbook (Best Match Model). Raw data report available upon request from tricia.coakley@uky.edu
