

## Phased Retirement vs. Post Retirement Comparison

UK CAFE employees considering a gradual transition into retirement have two options beyond a full retirement.

A **phased retirement** allows for an employee to reduce their full time equivalency to between 50 and 80% FTE while retaining benefits of UK employment, and may be approved for up to 3 years. Candidates for phased retirement must be at least 60 years old, and have at least 15 years of service to UK. Learn more about phased retirement here:

<http://www.uky.edu/hr/benefits/retirement/phased-retirement>

With a **post retirement appointment**, an employee fully retires from their position and is then hired on a temporary, part-time basis to fulfill either duties of their previous position or a different position. Post retirement appointments may be at any percent FTE, but may only be approved for one year at a time. Some changes in benefits apply to post retirement appointments. Learn more about post retirement appointments here: <http://administration.ca.uky.edu/facultypret>. For information about post retirement for Extension employees, visit this page: [http://ces-manuals.ca.uky.edu/files/post\\_retirement\\_info\\_and\\_guidelines\\_2016.pdf](http://ces-manuals.ca.uky.edu/files/post_retirement_info_and_guidelines_2016.pdf)

	<b>Phased Retirement</b>	<b>Post Retirement Appointment</b>
<b>Full Time Equivalency</b>	Must be between 50 and 80% FTE	Can be any percentage of time FTE
<b>Duration</b>	Can be approved for up to 3 years	Can only be approved for one year at a time, but there is no limit on the number of potential renewals. However, post retirement appointments for Extension employees may only be renewed for up to three years.
<b>Part Time Status</b>	Employee is considered a regular, part-time employee	Employee is considered a temporary, part-time employee
<b>Benefits</b>	Fringe benefits continue as usual, including retirement matching contributions on the reduced salary, life insurance, and full health insurance credit	Benefits change- no matching retirement contributions (although employees can continue to make voluntary, tax-deferred contributions); life insurance coverage ends; health insurance credit does continue as long as FTE is at least 20%.
<b>Leave</b>	Continues to accrue at a new prorated rate.	No leave is accrued.
